

Bereits seit 1979 erscheint unsere Zeitschrift Blickpunkt Straßenbahn. Alle 2 Monate berichten unsere ehrenamtlichen Redakteure und ständigen Mitarbeiter über den ÖPNV in Deutschland und in aller Welt. Das BS-Magazin kann online im BS-Shop bestellt werden. Die BS-Website gibt es seit 1996 – sie bietet ergänzende Inhalte zum BS-Magazin. Unser Straßenbahnatlas Deutschland 2005 ist derzeit noch lieferbar (Restexemplare!): In bewährter Form enthält das Werk Streckennetzpläne und Wagenparklisten der Straßenbahn-, U-Bahn- und O-Busbetriebe in Deutschland nach dem Stand vom Herbst 2004. Auch die S-Bahnen werden behandelt, wobei für Hamburg, Berlin und Karlsruhe auch der Wagenpark aufgeführt ist. Von drei großen Straßenbahn-Museumssammlungen sind erstmalig ausführliche Wagenparklisten enthalten. Verzeichnisse der übrigen Straßenbahnmuseen und Museumsvereine sowie der Verkehrsverbände und eine historische Übersicht über alle Straßenbahn-, O-Bus- und U-Bahnbetriebe in Deutschland im Bereich der Grenzen vom 3.10.1990 runden das unentbehrliche Nachschlagewerk für den Nahverkehrsfreund ab.

## THE WORLD'S DATABASE OF TRAM, TROLLEYBUS & METRO

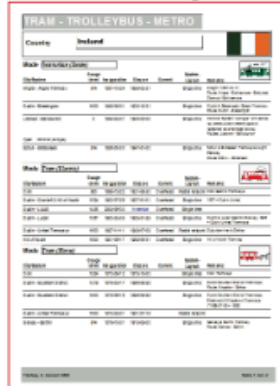

(Die Welt-Datenbank über Straßenbahn, Trolleybus & Metro)

Diese MS Access Datenbank ist eine einzigartige Enzyklopädie und umfasst alle bekannten Straßenbahnen, Trolleybusse, Metros, Standseilbahnen, Zahnradbahnen, Monorails, Peoplemover und Museen (Fahrbetrieb) der ganzen Welt. Die Datenbank zeigt Ihnen die wichtigsten Daten wie Eröffnungs- und Stilllegungsdatum sowie die Spurweite jedes Systems auf einen Blick. Zusätzlich gibt es Informationen über die Netzstruktur, die Stromaufnahme, Zahnradsystem, Streckenführung der Überlandbahnen inklusive Details wie Ausdehnung (km) u.v.m.

**NEUE  
Version 4.1**

Jede Liste dieser Art wäre ohne eine Karte wertlos. Möchten Sie etwa nach einem kleinen Ort irgendwo auf der Welt in einem Atlas suchen? Außerdem enthalten viele Atlanten nicht jeden Ort, der einmal eine Straßenbahn hatte. Aus diesem Grund gibt es zu jedem Land Karten mit der Lage und den Überlandstrecken. Diese PDF-Karten sind ebenfalls durchsuchbar. Sie sind mit dieser Datenbank in der Lage verschiedene Filter zu setzen und Berichte zu drucken - über jedes Land, die Betriebsart oder eine Stadt.

Jede Liste dieser Art wäre ohne eine Karte wertlos. Möchten Sie etwa nach einem kleinen Ort irgendwo auf der Welt in einem Atlas suchen? Außerdem enthalten viele Atlanten nicht jeden Ort, der einmal eine Straßenbahn hatte. Aus diesem Grund gibt es zu jedem Land Karten mit der Lage und den Überlandstrecken. Diese PDF-Karten sind ebenfalls durchsuchbar. Sie sind mit dieser Datenbank in der Lage verschiedene Filter zu setzen und Berichte zu drucken - über jedes Land, die Betriebsart oder eine Stadt.

### Neuerungen in Version 4.1:

- Daten und Karten auf dem neuesten Stand; überarbeitete Einträge
- Alle neuen Systeme und Veränderungen
- Detail Informationen für alle Länder (System- und Linien-km, Anzahl der Linien, Steigung etc.) komplett.

Die Oberfläche dieser Datenbank ist komplett in Englisch. Deutschsprachige Hilfeseiten sowie eine deutsche Definition der Betriebsarten machen die Benutzung dieser Datenbank jedoch sehr einfach!

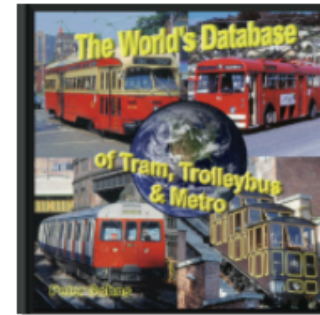

Die Datenbank kann mit Access Runtime<sup>1</sup> laufen; sie wird fortlaufend aktualisiert - die neueste Version ist garantiert!

THE WORLD'S DATABASE ist auf CD und als PDF-Datei (auch per E-Mail) erhältlich

## THE WORLD'S DATABASE OF TRAM, TROLLEYBUS & METRO

**NEUE  
Version 4.1**

This MS Access database is a unique encyclopaedia and covers all known tramways, trolleybuses, metros, funiculars, rack-railways, monorails, people movers and operating museums around the world. It will show you the important data like inauguration- and closure date and the gauge of each system at a glance. In addition, it contains information about the System's layout, Current collection, Rack-System, Interurban routes, all including details like extension (km) and others.

Any list of such a kind is worthless without a map. Would you

really like to search for a small town somewhere around the world in an atlas? Besides, many atlases do not contain any village which used to have a tram. Therefore, maps showing the location and Interurban-Routes are provided for each country. These PDF-maps are searchable, too.

You will be able to set filters and print out different kinds of reports about each country, mode or city. Statistics are included as well to give you an overview of systems past and present.

Discover the world of tram, trolleybus & metro! Enjoy the experience of locating the place you are looking for on a map especially created for this purpose.

Discover the world of tram, trolleybus & metro! Enjoy the experience of locating the place you are looking for on a map especially created for this purpose.

Discover the world of tram, trolleybus & metro! Enjoy the experience of locating the place you are looking for on a map especially created for this purpose.

### New features in Version 4.1:

- Data and maps are all up-to-date, revised entries
- All new systems and changes.
- Detail information for all countries (System- and route-km, number of routes, gradient etc.) now complete.

It is possible to run the database with Access Runtime<sup>1</sup>. This database will be updated continuously! The latest version is guaranteed!

THE WORLD'S DATABASE is available on CD and as a PDF-file (also by E-Mail)

CD	Version Access 2000, 2002 und 2003 - Komplette MDE Datenbank	29,90 €
CD	Version Access 2007 und 2010 - Komplette ACCDE Datenbank; Access runtime Version	31,90 €
CD	Update <sup>2</sup> für alle Versionen - Komplette MDE oder ACCDE Datenbank (E-Mail kostenlos)	9,90 €
PDF	Datenbank - Berichts-Version, alle Informationen außer "Quelle", "Bahnpost", ca. 1300 Seiten	29,90 €
PDF	Database - Komplette Berichts-Version, 1 Datensatz/Seite, ca. 8800 Seiten	31,90 €
	- zusätzlich 123 Länder (als PDF Karten); nicht einzeln erhältlich	5,90 €

Bitte bestellen Sie per Brief, Postkarte oder E-Mail mit Angabe der gewünschten Version. Vorauszahlung des Betrages ist notwendig (plus Porto 3,60 €/Europa, 10,00 €/Übersee; Pay Pal plus 1,00 €); E-Mail-Versand ist kostenlos.

Peter Sohns, Postfach 510106, D-30631 Hannover, Germany, E-Mail: [tram.trackmap@t-online.de](mailto:tram.trackmap@t-online.de). Bankverbindung: Sparkasse Hannover BLZ 250 501 80 No. 37 88 42 12, International Bank-account Nr. (BIC - SPKHDE2HXXX) IBAN DE17 250 501 80 00 37 88 42 12; Pay Pal wird akzeptiert.

**System-Voraussetzungen:** Dies ist eine Access Datenbank; daher benötigen Sie MS Access 2000, 2002/XP, 2003 oder 2007, 2010, 2013 auf Ihrem PC. Sie benötigen ebenfalls Acrobat Reader (Version 5.0 oder höher) um die Karten und andere Dokumente zu öffnen. Für die PDF-Datenbank wird nur der Acrobat Reader benötigt.

<sup>1</sup> **Access Runtime:** Diese Datenbank läuft mit der Runtime, die kostenlos von Microsoft erhältlich ist; die Funktionalität ist jedoch eingeschränkt - Sie können keine Filter setzen, es sind nur einige Berichte verfügbar.

<sup>2</sup> **Update:** Wenn Sie bereits eine Datenbank bestellt haben, können Sie jederzeit ein Update zum Vorzugspreis bestellen (innerhalb Europas incl. Porto, Übersee plus 5,00 €); Kostenlos als E-Mail-Versand (ca. 36MB)!

CD	Version Access 2000, 2002 und 2003 - Full MDE database	29,90 €
CD	Version Access 2007 und 2010 - Full ACCDE Database; Access runtime version	31,90 €
CD	Update <sup>2</sup> to all versions - Full MDE or ACCDE database (free by E-Mail)	9,90 €
PDF	Database - Report Version, all information except "Source", "Mail", ca. 1300 pages	29,90 €
PDF	Database - Complete Report Version, 1 File/page, ca. 8900 pages	31,90 €
	- additional 123 Country files (as PDF maps); not available separately	5,90 €

Please order by letter, postcard or E-Mail and specify the version required. Prepayment is necessary (plus postage 3,60 €/Europe, 10,00 €/Overseas; Pay Pal plus 1,00 €); no postage if send by E-Mail!

Peter Sohns, Postfach 510106, D-30631 Hannover, Germany, E-Mail: [tram.trackmap@t-online.de](mailto:tram.trackmap@t-online.de). Bank account: Sparkasse Hannover (BIC - SPKHDE2HXXX), International Bank-account No. DE17 250 501 80 00 37 88 42 12; PAY PAL and registered letter with cash accepted!

**System requirements:** This is an Access database; therefore you need MS Access 2000, 2002/XP, 2003 or 2007, 2010, 2013 on your PC. You also need Acrobat Reader (version 5.0 or higher) on your PC to open and view the maps and other documents. For the PDF-Database only Acrobat Reader is necessary.

<sup>1</sup> **Access Runtime:** This database will operate with the Runtime, which is available from Microsoft (free); however, the functionality is limited - you can't set filters and reports from the main form; just few reports are available.

<sup>2</sup> **Update:** If you already ordered a copy of the Database, you are entitled to ask for an update at any time for a reduced price. The Update price includes Postage for Europe (plus 5,00 € Overseas); Free by E-Mail (ca. 36MB).
